Mr Tickle's Adventures

In 1971, Mr Tickle was the first. In Sweden during the war, a teenage Ingvar Kamprad saw his first bloody Allen key and the bloody flatpack was inflicted on the world. Mr tickle tickles people, as far as we can make out, without asking them first.

Mr. Tickle by Roger Hargreaves

Of course I had to. Tickle has super stretchy arms that allow him to tickle people without being seen. For example Mr Tickle is about a character whose main feature is his long arms and he his time is spent tickling other characters in the story.

Tickly, Tickly, Tickly, Tickly, Scream!

Get ready to fall in love with Mr.

He is pretty sneaky with those long arms.
