### Girl or Boy? As Fertility Technology Advances, So Does an Ethical Debate

I go to church regularly and am a Christian but I do not feel this is a bad thing at all or why would God make it available to us, along with invitro fertilization and all the wonders He has created? In countless other cases, surrogates whose eggs were used have changed their minds about giving up the child, only to be told they must relinquish the baby which is biologically theirs. Back then, the test was expensive to carry out, but in the late 1960s the home pregnancy testing kit was invented, and is now easily accessible in the West.
