## What is the Life Expectancy In Canada?

Statistics Canada, Report on the demographic situation in Canada, 2001, 1970-1972 to 1990-1992.

## Population Index

Life table studies that are concerned with topics other than mortality are classified under the appropriate heading and cross-referenced to this heading. The survey results indicate a crude mortality rate of 36 per 1,000 per year in this area.

## Institute of Health Economics

Reasons why improvements in mortality have been confined to the professional and managerial social classes are discussed.

## Life expectancy, 1920

The second part is concerned with life table functions.

## Longevity and historical life tables : 1921

Improvements in life expectancy in Canada Life expectancy in Canada has greatly improved since the early 20th century. Census of India Occasional Paper, No.
