## Census of the three provisional districts of the North

The widespread dispersal of the Scots and their contributions to western settlement and development can be seen in the careers of many outstanding persons, only a few of whom can be identified here. The British transferred the to Canada on 1 September 1880.

## Northwest Territories Census • FamilySearch

In 1841 and 1854 James Sinclair, free-trader son of an Orkneyman, had pioneered overland routes from Red River across the Rockies in conducting parties of settlers to the Oregon country. Of the latter, five were killed in their rifle pits in the final bayonet charge.

## North

Administratively, the Territory was divided into a succession of counties, eventually totaling 13.

## Northwest Territories

Both provinces have had ten premiers to 1975 since they were founded 68 years ago in 1905 and in both provinces five premiers have been Scots, occupying the position for a total of 21 years in Alberta and 50 years in Saskatchewan, the latter accounted for in part by the lengthy term of Thomas C. The southern half, which had a warmer climate, larger population, and better agricultural farmland, became the of Manitoba 1870 , Saskatchewan 1905 , and Alberta 1905 , while the less populated, less economically desirable northern half was divided into the Northwest Territories 1870 and Yukon 1898 , followed by Nunavut 1999 a century later.
