The work *The Doctrine of Election* has a purpose and theme that may be summed up as follows: The current form of Calvinistic doctrine goes against human experience and the real message of Scripture. This enthralling work will amaze and entertain in equal measure and may well prove a source of inspiration for current students wishing to enliven their undergraduate days. Erskine also authored *The Brazen Serpent* 1831, and then wrote *The Doctrine of Election*, a lengthy treatise on the theological doctrine of predestination and interaction with Paul's Letter to the Romans, which appeared in 1837.
