While the Lanzón itself was hidden deep in the temple and probably only seen by priests, the same iconography and contour rivalry was used in Chavín art on the outside of the temple and in portable wares that have been found throughout Peru Nose Ornament, c. Maintaining these galleries over time was important to architects.

Ancient Stone Tenon Heads Discovered in Ancash, Peru

Over the course of 700 years, the site drew many worshipers to its temple who helped in spreading the artistic style of Chavín throughout highland and coastal Peru by transporting ceramics, textiles, and other portable objects back to their homes. Leaders managed daily secular functioning, and it corresponded with authority figures leading from a small group, rather than having one individual as the head figure. Platforms were built directly on top of fallen wall stones from earlier constructions, as there was little to no attempt to remove debris.

What is the meaning of Chavin?

The rituals in the space might have been indicative of the other diverse practices that took place at that time. The use of psychotropic drugs, such as Amazonian Ayahuasca or local San Pedro Cactus, has been supported indirectly through the archaeological record. The incised designs depict a person of high rank, indicated by his facial tattoos and ankle ornament, playing a shell trumpet.

What is the meaning of Chavin?

The lack of residential structures, occupational deposits, generalized weaponry, and evidence of storage further make the site's architecture more interesting, as it focuses mainly on the temples and what lies inside of them. During this time at Chavín de Huantar, two small residential areas, not

located directly surrounding the ceremonial center, housed a few hundred people in total. Compare the social differences between the two civilizations.
