NJ Department of Community Affairs

The Tiny House movement has been pressing forward very quickly yet many people seem to hit a road block when they come across building code regulations since Tiny Houses have not been addressed in the Building Code, until now... The newest edition of the 2018 International Residential Code has finally addressed the Tiny House issue.

A Vintage Code Library

Tiny House Loft Access A Loft must provide a minimum level of access and egress to and from the space, such as stairways or ladders.

Building Codes

As for Handrails they must comply with the same code sections used for your traditional home. This regulation became permanent upon approval by the Independent Regulatory Review Commission on December 6, 2018. Section AQ104 outlines these minimum requirements for Lofts.

A Vintage Code Library

Headroom for stairways accessing a loft shall not be less than 6 feet 2 inches. Gaining proper code knowledge is a key fundamental component to all building professions. Sets the standards for which much of the IRC and IBC is based upon.
