## **Roles and Responsibilities in Change Management Process**

There simply is no substitute for the role that leadership and supervision play in accomplishing successful organizational change. There is a domino effect of this event happening.

## **Roles and Responsibilities in Change Management Process**

The rate and magnitude of changes that affect organisations are increasing dramatically.

### **Role**

Roaring down the tracks towards a common objective is one of the best feelings in business. Or, your team might be doing the work of another team which takes focus from their own jobs. Thus, even more rational analysis will not convince them that the decision is right.

## **10 Tips for Dealing with Change Positively in Your workplace**

Once the roles and responsibilities of each member of the organization has been clearly defined, it is a good idea to create a final organizational chart, which will also define the relationships between and among all the departments, teams and individuals within the organization.
