In this chapter, we examine aspects of organizational environments that research and practice suggest are changing and are causing managers to redesign their organizations.

Ed L. Jenkins Papers

As a result, members of the same profession now find themselves variously located in the societal structure of work—some in traditional solo practice; some in small groups or not-so-small professional organizations of their own construction, in which the professional service is the main organizational product; and some as staff specialists in organizations whose primary products or services are not those of its professionals.
