## Noel's Garden Blog: Perennials

August 18, 2018 My mother said you might be able to identify this flower. How big does it get? If you don't know the scientific name, the common name is referenced in the back of the book. The rhizomatous roots are called pips.

## Fertilizing established perennial gardens

If so where is best area to plant, presently in pots with full sun.

## Essential Perennials: The Complete Reference to 2700 Perennials for the Home Garden by Ruth Rogers Clausen, Thomas Christopher, Hardcover

Bob Lilly has been in the horticulture trade since his summers in college. For home cooks in search of authenticity without complication. Perennials: A Gardener's Reference answers these and many other questions for more than 2,700 species and cultivars in 250 genera, making it one of the most comprehensive guides available.

## General Care

Make sure the soil is well drained, especially during the winter months. Irises, for instance, have species with myriad combinations of height, bloom time and preferred conditions, including some that cope with conditions far different than the standard garden iris. Something I'd love to own for myself!! The process of selection is challenging.

## Noel's Garden Blog: Perennials

I don't trim back the lantana until after danger of frost is past so I'm not certain what the problem is. August 2012 I have a perennial garden that is almost 20 years old. She lives in Seattle, Washington.

## **Noel's Garden Blog: Perennials**

It does set seeds and then the stalk will wither and die. If your soil is particularly poor, and over-fertilization and salts is not an issue, try using a slow release fertilizer such as osmocote, then using a water soluble fertilizer every two to three weeks. Since then, however, enterprising breeders, growers, nurseries, and plant hunters have introduced tens of thousands of new species and cultivars to the North American market.

### **Perennials: The Gardener's Reference by Susan Carter**

The glut of new material, each element of which is advertised in glowing terms, creates a dilemma.
