Pollen counts from McNally and Thompson site samples 56 6. Building on a relatively recent review of northern Mexican prehistoric chili cultivation by Paul Minnis and Michael Whalen, we examine two recent chili finds in Arizona. Radiocarbon dates from Upland Mogollon pithouse

villages 20 2.

**Early Pithouse Villages of the Mimbres Valley and Beyond: The McAnally and Thompson Sites in Their Cultural and Ecological Contexts**

Aunque nunca adecuada para irrigación agrícola a gran escala, esta región proporcionó zonas pequeñas de tierra cultivable dispersos a través de un terreno accidentado rico en alimentos silvestres y recursos alboréales. This volume presents a complete report on the archaeology of two important Early Pithouse settlements located along the Rio Mimbres, including detailed accounts of the excavation units, depositional contexts, architectural details, radiocarbon dates, miscellaneous artifacts, and ceramic frequency distriductures.

**Early Pithouse Villages of the Mimbres Valley and Beyond: The McAnally and Thompson Sites in Their Cultural and Ecological Contexts (Papers of the Peabody Museum) (v. 83) by Diehl, Michael Steven new Soft Cover (2001)**

Use-alteration of partially reconstructed McAnally site jars 74 Archaeologists synthesize information about Upland Mogollon Pithouse period occupations, AD 200-1000, throughout the southwest US region, and present a complete account of the excavations of and artifacts obtained from the two sites, which were occupied by the earliest agriculturally based people of that region.

**Early pithouse villages of the Mimbres Valley and beyond : the McAnally and Thompson sites in their cultural and ecological contexts : Diehl, Michael William : Free Download, Borrow, and Streaming : Internet Archive**

The Thomson and McAnally sites contain architecture, artifacts, and other remains of the earliest relatively sedentary horticulturalists to occupy this part of the Southwest.
