### Immingham engine shed and similar railway depots

Special Meeting Held Sunday 17th May 1936 Officers present F. This platform still has track, as it is still used for military purposes to link with the depot in Ludgershall. Britain's railways were nationalised on January 1st 1948 as part of the progressive programme of the post-World War 2 Labour government, forming British Railways BR, with its distinctive lion and wheel 'crest' which soon became widely applied.

### BR Western Region Locomotive Depots

Sweeney being in attendance, along with members from the Battersea Branch, Bros. Public Relations and Publicity Department. No leave of absence be granted unless representatives agree.

### BR Western Region Locomotive Depots

### TOPS Depot Codes

The building — still in use over 120 years later for light industrial and commercial units.

## **BR Western Region Locomotive Depots**

Stock Alterations Midland Rail Fans. Engine sheds in the modern era An evening view of and The maintenance of the new diesel locomotives in filthy steam sheds soon proved difficult and, although some old sheds survived, many new diesel depots were built on new sites or on the sites of the old steam sheds. Thus the CLC could now close the small locomotive shed at the terminus, which up until this point had been a sub shed of Northwich motive power depot.

## **List of British Railways Shed Codes**

LOCOMOTIVE JOURNAL JANUARY 1936 I am pleased to report good attendance at our last meeting, and a very interesting subject was discussed. The last two examples were constructed some 17 years later in 1951 but with some radical changes to the design.

## **LOCO SHEDS**

They are receiving the Southern Region Staff Association trophy for crib pairs.
