The character designs are simple as well. The beat, unfortunately, is generic and the instruments are loud, making it rather unpleasant to hear.

Hachiman shinkō no kenkyū, Nakano's opus magnus of more than 900 pages, was first published in 1967. There are a few more, but they all follow the same trend: a simple quirk that is joked about once or twice. After a short honeymoon, the show follows their life on a day-to-day basis.

The soundtrack contains hard guitar segments for the scarier moments, fun little beats for the comedic ones, and chime-filled, violin pieces for those touching scenes. This event was taught by James Shortt Sensei and was attended by participants from Japan, Europe and Australia. The quickness of the show itself also allows such minimal animation to work, relying more on viewing or hearing the joke for that particular scene, as opposed to watching it play out.
