## complex choreography of agricultural biotechnology in Africa

The system of property rights in effect at any given time reflects a social and legal consensus on rules for access, control, exchange and the right to profit from use of goods, but it also reflects basic physical and biological capabilities with respect to the goods in question.

## How to Do a Case Study

The second was that the project had ended almost a year prior to being announced publicly. Conclusion Perhaps the most obvious need for ethics in the evaluation of socio-economic impact from scientific research and technological innovation is simply that scientific integrity demands a fair and truthful evaluation process.

## Cuba: A Successful Case Study of Sustainable Agriculture

As Ethiopia is unacceptably lagging behind in the biotechnology sector, learning from the experiences of other nations through partnerships, linkage programmes and other schemes becomes indispensable.

## Determinants of Tanzanian agricultural export: A case of cotton lint.

In fact, case studies often deliberately focus on unusual, neglected, or outlying cases which may shed new light on the research problem. Crop Science 45: 1271—1280, , accessed 21 January 2009.
