## Does Geothermal Energy Have A Future Under The Biden Administration?

Currently, however, Calpine is trying to find a buyer at 11 or 12 cents in order to afford the plant.

## Geothermal Energy Costs

In this way, the productivity index is independent of phase conditions and steam fraction. The research team is working toward a green energy future, and environmental awareness is a top priority.

## California to build first geothermal power plants in a decade

Footage of various geothermal energy facilities. The framework matches the pressure derivatives of the transient well test response, identifying well effects and events that cannot be handled by existing interpretation techniques.

## The Power War: Geothermal vs. Nuclear

Smart Land Use Geothermal energy has the smallest land footprint of any major power source. The vapor then drives a turbine and powers a generator. Fervo is working to develop horizontal drilling techniques with similarities to those used by the oil and gas industry, which could make it easier for energy companies to find and tap geothermal reservoirs.

## Energy 101: Geothermal Energy

There's only one problem: It can't find a power buyer.
