A qualitative evaluation of general practitioners' perceptions regarding access to medicines in New Zealand

These findings suggest that a biomedical approach prevails in Lithuanian PHC and that PHC teams do not work collaboratively.

## 7.10 Role of health professionals and social services

Doctors and general physicians all over the world face similar issues related to cost containment and the clinical prescribing. Scott A, Bond C, Inch J, Grant A: Preferences of community pharmacists for extended roles in primary care: a survey and discrete choice experiment. Patients' views of the role of the primary care physician.

Teamwork in primary care: perspectives of general practitioners and community nurses in Lithuania

The responsibility of plastic surgeons to help patients stop smoking. Such high patient expectation leads to frustration among professionals.

Evaluating patient satisfaction with nurse practitioners

Nunez DE, Armbruster C, Phillips WT, Gale BJ: Community-based senior health promotion program using a collaborative practice model: the Escalante health partnerships.

## **Evaluating new roles within emergency care: A literature review**

There were concerns about financial barriers for some patients. The New Zealand Medical Journal, 2010; 123 1317 :35—40.
