Broadcast your PowerPoint presentation online to a remote audience

Protect your devices against malicious software Keep your computers clean and safe.

Azure Bot Services

This convoluted solution is too time consuming for performing minimal tasks and would drive users away from accessing corporate resources when only minimal access was needed if time was an issue.

Freshservice Pricing Plans

These are appropriate because only a small number of users actually access Remote Desktop Services but often do so from multiple computers. Within the IT service catalog, you will find an organized, digitized presentation of all of the IT services that your company provides — from resetting a lost password to accessing a financial system.

Broadcast your PowerPoint presentation online to a remote audience

Deploy and activate TeamViewer Backup remotely within seconds.

Free Ticketing Software

Automatic discovery of Remote Desktop License servers is no longer supported for Windows Server 2008 R2 running RD Session Host server.
