Scenario number three, the one with the most potential impact, however unlikely to be brought to reality, is the approval of a constitutional amendment a proposal already under assessment in Congress which allows for direct general elections as a means to surpass the political dead end Brazil is facing at the moment. Scenario number one basically concerns the continuity of Temer as president. .

Very unfortunately though, political options seem scarce, vicious and chronically unfeasible. One way to answer these questions is via an adaptive assessment like.

### Interim Guidelines for Assessment and Grading in Light of the Basic Education Learning Continuity Plan

Here are some ways educators use interim data: + to measure student achievement — where students are starting — and growth over time + to

identify patterns in learning for particular students or groups of students + to target additional resources for students and teachers — examples of this include placement into intervention or talented-gifted programs for students, and professional development opportunities for teachers + for principals and district administrators, the data are useful for determining flexible groupings, tracking progress toward critical milestones — for example, are our third graders on track to be fluent readers by the end of the year? Assessment is integral for understanding student learning and development; c. The seasonal system permits enough instructional time between test administrations to be able to calculate growth in learning with statistical confidence. This ability to aggregate data at critical points in the learning cycle allows interim assessment to have a broader set of purposes than both formative and summative assessment.

Nonetheless, as the dirty laundry of political figures has also come to surface, even if Temer stays in office, social pressure about corruption will skyrocket and the media will make no effort to tune it down. For the students who are ready to be challenged—what are they ready to be challenged by? If the assessment is adaptive, those decisions can better serve all the students in the class—not only those who are ready to learn at grade level. Interim assessment can help identify gaps so that all students have the opportunity to grow — no matter where they are starting.
