**Was the Yugo really the worst car ever?**

With political problems starting in 1991, quality dropped significantly, coming to such low standards such as plastic parts of the dashboard not fitting correctly.

**No**

Of course, all of its competitors would later switch to front-axle drive. Predicted gas mileage was 42 to 45 mpg at 70 mph. I go out to start to stock them in and this is what happened: key broke off in door — 1 car.

**Yugo**

Although it went on to become the best-selling subcompact car in the U.

**Was the Yugo really the worst car in history?**

Cheap and incredibly deprived — with vacuum-operated windshield wipers, no less — the Gremlin was also awful to drive, with a heavy six-cylinder motor and choppy, unhappy handling due to the loss of suspension travel in the back.
