Wright was a frequent contributor to the exhibitions of the Society of Artists, and to those of the , of which he was elected an associate in 1781 and a full member in 1784. These factual paintings are considered to have metaphorical meaning too, the bursting into light of the phosphorus in front of a praying figure signifying the problematic transition from faith to scientific understanding and enlightenment, and the various expressions on the figures around the bird in the air pump indicating concern over the possible inhumanity of the coming age of science.
