### Year 1: Everyday Materials

This lesson comes fully planned and ready to teach, including a detailed lesson plan, a slideshow for the teaching input, differentiated activity ideas and a range of printable resources. Glassmaking over the centuries Many different useful and decorative articles have been made from glass over the centuries.

### Paper : Exploring the Science of Everyday Materials

For example, in optical glasses, a wide range of compositions is required to obtain the variety of and dispersion needed if the designer is to produce multicomponent lenses that are free from the various faults associated with a single lens, such as. Ferric oxide gives a yellow colour but requires an oxidizing agent to prevent reduction to the ferrous state.

### Paper: Exploring the Science of Everyday Materials (Science Explorers) Nicola Edwards: A&C Black Childrens & Educational

In order to effect this reduction, much of the sodium oxide added as a flux is replaced by  $B_2O_3$  and some of the lime by alumina.

### Materials Science

Izdelek ki ga želite dodati v košarico ni možno kupiti skupaj z izdelki, ki jih že imate v košarici.

### Exploring Everyday Materials Year 2 Science Lesson Plans

Session E tries to find out about the suitability of materials by building homes for the Three Little Pigs, trying to make them strong enough to withstand a hairdryer! Ko vam bomo poslali paket boste o tem obveščeni tudi po emailu.

### How to identify materials

Because without it, billions of tons of pollutants would inhabit the air we breathe. Displayed by permission of The Regents of the University of California.

## **Glass Exploring the Science of Everyday Materials (Science Explorers)**

The glassmaker discovered about 1675 that the addition of lead oxide to Venetian-type glass produced a solid, heavier glass.

### **Materials and their properties (clip compilation)**

The , properties, and industrial production of glass are covered in.
