Student Science Training Program

To be eligible for this program you can be an undergraduate student at any university or you can be from the University of Maryland College Park. Students also have access to outdoor swimming pools and outdoor green space for both program-organized and self-organized activities. During the summer, our Science Education Department offers high school students the opportunity to learn more about biomedical research.

Office of Student Research

Through the exceptional capabilities and caring spirit of its people, Vanderbilt will lead in improving the healthcare of individuals and communities regionally, nationally and internationally.

Research Training Program for High School Students

Additionally, students develop important interpersonal, leadership, professional communication, and organizational skills through academic, social, and service activities. The waitlist is not ranked. Virtual Research Training Program VRTP Format Online Duration 1 week Time Monday to Friday: 10 am - 12 pm Tuesday and Thursday: 1 pm - 2 pm Dates Session 1: June 28 - July 2 Session 2: July 12 - July 16 Session 3: August 2 - August 6 All sessions are identical.

Student Science Training Program

Students should budget for the following: grocery shopping; the number of meals he or she plans to eat out; non-program-sponsored social activities such as going to the movies; souvenirs from the UF bookstore and fieldtrips; and some academic expenses such as printing in UF computer labs and printing of the final research poster. Quynh Nguyen received her PhD in Epidemiology in 2011 from the University of North Carolina School of Public Health and joined the University of Maryland faculty in 2017.
