Why Are Jesus' Genealogies in Matthew and Luke...

The meaning of the Dead Sea scrolls: Their significance for understanding the Bible, Judaism, Jesus, and Christianity. These names first appeared in the second century and were assigned to the anonymous writings to give the writings apostolic authority. In the fourth gospel traditionally attributed to John, the author employs many terms and phrases that demonstrate an understanding of Stoic and Platonic concepts that are alien to Judaism, which suggests that the author was familiar with Greek philosophy, and possibly a Hellenised Jew.

Matthew 2, Luke 2 NIV

A commentary on the infancy narratives in the gospels of Matthew and Luke, updated edition.

Gospels Not Written By Matthew, Mark, Luke or John « The Church Of Truth™

Since Joseph was genuinely in the kingly line of David, Jesus was as well. However, Mark places it much later, about halfway through his Galilean ministry Mark 6:1-6.

Why are Jesus' genealogies in Matthew and Luke so different?

They were far more concerned with proclaiming the significance of the events surrounding Jesus as a new revelatory act of God in human history. Thus, legally Joseph would be descended from David via Solomon and the kings of Judah, but biologically he would be descended through David's son Nathan. Otherwise you would not dare to even give so much as a hint that this was not the work of The John, former fisherman, disciple, apostle and now evangelist? Proof of the gospel of Mark as being written not before the destruction of the Jerusalem Temple in 70 CE, is the verses as quoted in Mark chapter 13, as well as palaeography.
