Bibliographies

General database covering astronomy, religion, law, history, psychology, humanities, current events, sociology, communications and the general sciences. Building on previous critical work in the field, this volume will bring together ideas from a range of disciplines - film studies, African cultural studies, and, in particular, postcolonial studies - in order to combine the in-depth analysis of individual films and bodies of work by

individual directors with a sustained interrogation of these films in relation to important theoretical concepts. A través del cine queremos deconstruir estereotipos y aportar conocimiento acerca de las múltiples realidades de África, el mundo árabe y, sus diásporas en América Latina, dando voz a los cineastas africanos porque creemos que es hora de que África sea contada por los africanos.
