### JERICHO ISRAEL: The Capital of Antiquity

This is where the examination of the trenches aids us in this complex mystery. Jericho's tower is made of concentric rows of undressed stone and it was built and used between 8,300—7,800 B. On one end of the spectrum are radicals who date the destruction of Jericho based upon the biblical record.

### Excavations at Jericho

Eric Chaim Kline provides appraisal services for estate, insurance and tax purposes, often helping to match book donors with libraries and museums. Both were excellent field archaeologists Garstang meticulously analyzed the pottery he excavated and Kenyon carefully improved excavation methodology in general. The rarity of Hatshepsut scarabs makes them excellent chronological indicators.

### Excavations

Kenyon's work was the most detailed. So the people shouted, and they blew the trumpets; and when the people heard the sound of the trumpet, the people shouted with a great shout and the wall fell down under itself, so that the people went up into the city, every man straight ahead, and they took the city Joshua 6:20. There is something present, albeit it may fall into an entirely different range of dates.

### Excavations at Jericho, 1934

The archaeological record in the 15 th century BC 1 shows no conquest of this kind in Canaan.

### Excavations at Jericho

Share your questions, comments, and thoughts on this ancient city! The outer mud brick wall had been built atop a retaining wall. In my opinion, this is hardly a correct representation of the social organization at Jericho during the supposed destruction.

### The Walls of Jericho

The book of Joshua also records that the siege of Jericho was short and the Israelites did not loot the city. Douglas and Margaret Tushingham participated in both seasons, during the second of which Dr.

### **Jericho Archaeology**

Caravans carried spices, perfumes, and other goods from the Arabian peninsula along this highway, stopping off at key sites along the way such as, Kirharseth, Dibon, Heshbon, Ramoth-gilead, and other major cities leading to Damascus. At the north end of the tell of Jericho, archaeologists made some astounding discoveries that seem to relate to Rahab. The settlement that the tell represents is one of oldest more or less continuously occupied locations on our planet and it is currently over 200 m 650 ft below modern sea level.
