7 Interactive Geography Activities with Maps!

A unique feature of this service allows users to view the images continuously and seamlessly, giving the user a feeling of 'flying over' the photographed land areas.

7 Interactive Geography Activities with Maps!

For example, you can study anything from traveling, cultures, and Earth science. Infoplease is a reference and learning site, combining the contents of an encyclopedia, a dictionary, an atlas and several almanacs loaded with facts. But as an alternative, or a complement, to reading news articles, teachers can ask students to analyze visual images about current events, such as , graphs and maps.

Atlas Lesson Plans & Worksheets

If the line that you're trying to measure is quite curved, use a string to determine the distance, and then measure the string.

Exploring Maps and Models of Earth

Crockett, Sayers, Cunningham and Burns, the event will identify inspiration gleaned from the local landscape, exploring how this is represented on historic maps and, using this evocative subject, discuss broader questions such as landscape change which affect us right through to the present day.
