## Messerschmitt Bf 109D

Thirteen of these men scored more than 200 kills, while two scored more than 300. Conversely, early Spitfires suffered from this limitation.

## Messerschmitt BF

Project drawings of the K-8 show a K-series airframe powered by the two-stage DB 605L high altitude engine, a high-velocity 30 mm l.

## Messerschmitt Bf 109D

So Messerschmitt's new fighter was flying high, but a little under one year later, when the Battle of Britain began in earnest in August 1940, the hitherto victorious Bf 109 finally met with some real opposition. Among those firms which wished to enter the competition was Bayerische Flugzeugwerke BFW led by chief designer Willy Messerschmitt. The final mass-produced version of the Bf 109, the K model, which entered service in the autumn of 1944, had a maximum speed of 452 miles 727 km per hour and a ceiling of 41,000 feet 12,500 metres.

## Messerschmitt BF

A total of 1,276 E-3 were built, including 83 E-3a export versions. German Aircraft and Armament: Informational Intelligence, Summary No. German World War II fighter aircraft designed by Willy Messerschmitt in the early 1930s.

## Paul K. Guillow, Inc.

A large panel under the wing centre section could be removed to gain access to the L-shaped main , which was sited partly under the cockpit floor and partly behind the rear cockpit bulkhead. After test fights, the V14 was considered more promising and a pre-production batch of 10 E-0 was ordered.

## The Famous Messerschmitt Bf109

This meant that pilots had to taxi in a sinuous fashion which also imposed stresses on the splayed undercarriage legs.
