LET'S BUILD A STORY!

Picture 1 In one place called Bošt in Croatia, behind six hills, two rivers and over the mountain that touches the clouds, there lived a little crazy scientist Cedric who still hadn't discovered or invented something.

LET'S BUILD A STORY!

Sadly, many North American native dogwoods in the genus have become susceptible to the potentially fatal fungal disease dogwood anthracnose. They have conducted research by collecting lice from various depths with a pump, as well as collected samples from just beneath the surface of the sea with a dip net, which is the most common procedure. To achieve this year-round appeal, however, does take some work.
