The Mathematics of Plato's Academy: A New Reconstruction

Philip's allies in Greece deserted him and in 197 BC he was decisively defeated at the by the Roman proconsul. Athens surrendered one year later, ending the Peloponnesian War. It's not hard to give a proof, in a Greek geometric style, that the sequence goes on forever and the incommensurability follows! Much like the Eiffel Tower in Paris or the Parthenon in Athens, the Hagia Sophia is a long-enduring symbol of the cosmopolitan city.
