

Symposium on Auditing Research - [proceedings]

Dept. of Accountancy, University of Illinois at Urbana-Champaign - Innovation Research Symposium 2018

Brainstorming Session	<ul style="list-style-type: none">•First Session•Participants were broken into two smaller groups•Each group was given an identical set of question topics.•Each individual group member was given one unique topic from the set to respond to.•Each question topic was then passed around to the other group members to elaborate on the response.•Each group then ranked the question topics with responses in order of importance and relevance.
DePhi	<ul style="list-style-type: none">•Second Session•Each participant was given an identical set of 6 questions•Each participant responded to and ranked the questions on importance and relevance individually. <ul style="list-style-type: none">•First and Second Sessions•Participants underwent two rounds/iterations answering the same 12 questions.•First round was unstructured and participants individually ranked 12 questions in order of importance, each currently and in 10 years from now on a scale from zero to ten, representing the level of change (from 0 to 100%) that they expected in the future relative to the auditing profession.•Results were tabulated by the researchers and then discussed by the group.•Second round asked the same 12 questions and participants were free to change initial rankings based on group discussion.•Results were again tabulated with the intention of a smaller range of ranks.
