## Protesting the Republican National Convention

Also see the classic work by Whitney R. The convention center's lobbies and atrium also include small trees, shrubs, ivy, and flowers in planters used to divide lounge areas. While Washington held the belief that America should have a strong central government and a single executive leader, he did not allow his bias to sway the other delegates.

## Michael Beschloss

In October 1996, the convention center board chose a two-block site on the north side of Pike Street over a proposed site on First Hill. If and in so far as they were not, this was because they were not subject to the jurisdiction of the English courts and hence were not in a situation similar to that of O. The group of men had originally meant to gather with the intention to revise the , as they were seen as just barely holding their new country together.
