## COVID

We earn our right to grow by achieving returns that exceed our cost of capital. Alcoa Earns 2002 ASM International Engineering Materials Achievement Award ASM International named Alcoa the recipient of its 2002 Engineering Materials Achievement Award, which recognizes outstanding developments in the application of materials in products that benefit industry, the consumer, and society as a whole. All results are to be fully documented.

## 10 U.S. Code § 2302

The inspection capability for honeycomb and foam core sandwich structures was determined on aerospace style reference samples. We expect integrity from our customers, suppliers, and others who do business with us.

## Corrosion problems in the chemical industry

As long as the defending Member, however, can provide a reasonable explanation of why it did not adopt such an alternative, its justification would stand. Zedillo is the former president of Mexico; elected in 1994 and served until 2000; held various positions in the Mexican federal government since late 1987 including secretary of education, secretary of economic programming and budget, and undersecretary of planning and budget control. The specific type and nature of the initiatives at any given Alcoa location are dictated by local workforce and community expectations.

## Lookback Reviews

And yet, effective implementation of the building codes remains a major challenge. The study indicated that 90 percent of the employees did not use a respirator, 88 percent did not use recommended clean-up methods, 97 percent used dry paint removal methods, 67 percent had received no

materials on lead hazards, and 87 percent had no lead exposure training.
