Exam 2 Ch. 3/4/5 Flashcards

The most certain way to do this is through carefully observed and recorded excavation see below. Building dedications, such as the initial cornerstone of a Sumerian monumental building or the altar dedication by the Greek city of Chios at Delphi shown above, were typically inscribed on blocks of stone by the person s responsible for its construction. Add to this the limited vocabulary of ancient languages and the tendency for ancient words, particularly verbs, to possess broad shades of meaning, and the process of rendering texts into modern English in a manner that is both readable and accurate forms a challenging enterprise.

Exam 2 Ch. 3/4/5 Flashcards

The Americas consisted of Aztec, Maya, Incas, The Caribbean and North American people. Clay tablets bearing Bronze Age documents, for example, were probably never intended to survive to any great length of time.

World Lit Essay

Although the logical purpose of this coinage was to pay the bounties that Caesar had promised to his troops, the fact remains that coins once distributed or otherwise circulated traveled rapidly and potentially over great distances through repeated use in commercial transactions.

Chapter Two: Means of Chronological Dating

Artifacts are defined as movable objects fashioned by humans.

Chapter Two: Means of Chronological Dating

Laing passed away peacefully at age 87 on Friday, Main Woodland Hills, California. Definition 275,000 Term The first newspaper printed in the Colonies lasted but one day. Classical scholars are fully aware of the impact of these losses over time.

Exam 2 Ch. 3/4/5 Flashcards

Another form of e-publishing: Definition Print on Demand POD Term Unsold books returned to publishers to be sold at great discount are known as: Definition Remainders Term Digital books with the appearance of traditional books but content that is digitally stored and accessed are known as: Definition E-readers Term Digital and hard copy books available for any and all reading devices is known as: Definition Platform Agnostic Publishers Term Before conglomeration, publishing was often described as ; that is, publishing houses were small operations, closely identified with their personnel-both their own small staffs and their authors. The extent of literacy among the wider population remains debatable, nonetheless. Careful isolation and identification of correlative artifacts and features are said to form an Assemblage of a given human settlement in time.
