Did the atomic bombings of Hiroshima and Nagasaki really end the war?

Despite Truman's attempt at self-delusion, living in Hiroshima and Nagasaki in 1945 were women, children and old people, as most of the men were away fighting the war, or dead from it. Schaffer, *Wings of Judgment*, 143-146. While claiming to be protecting the world from proliferation threats in Iraq, Libya, Iran and North Korea...they also have abandoned past pledges and now threaten first use of nuclear weapons against non-nuclear states.

The War Crime of the Bombing of Hiroshima and Nagasaki

With this last formal surrender, came to an end. Exploding with a yield equivalent to 12,500 tonnes of , the blast and thermal wave of the bomb destroyed nearly 50,000 buildings and killed approximately 75,000 people.

1945: US responses to the atomic bombing of Hiroshima and Nagasaki

They caused terrible human losses and destruction at the time and more deaths and sickness in the years ahead from the radiation effects.

Hibakusha

I can therefore speak without doing so defensively. While none of the safety problems harmed plant employees or the public, they occurred with alarming frequency—more than once a month—which is high for a mature industry.

Hiroshima at 75: bitter row persists over US decision to drop the bomb

Firebombing raids on other cities followed Tokyo, including Osaka, Kobe, Yokahama, and Nagoya, but with fewer casualties many civilians had fled the cities.
