Any number of makes or models is included, provided they are specifically named. If there is one, go to step 5; if not, complete the class number by inserting a point between the third and fourth digits, e. An engineering library might prefer close classification for works in engineering, but broad classification for disciplines outside science and technology.

## A Virtual Library of Useful URLs Arranged by Dewey

A small school library might prefer to class the same work in the broader number 306.
