### Noise and Hearing Conservation

Much of this has been conducted in conjunction with employees receiving a threshold shift from a recent audio exam. If noise exposures exceed allowable levels 85 dBA as an 8-hour time-weighted average , all affected employees must enroll in the UA Hearing Conservation Program. The approach to defining SEGs may be accomplished through observation of occupational work tasks along with exposure monitoring.

### OSHA Hearing Protection Safety Requirements & Tips

Finally, the NIOSH criteria document provides recommendations for the management of hearing loss prevention programs HLPPs for workers whose noise exposures equal or exceed 85 dBA. Environmental Protection Agency EPA requires to be shown on the label of each hearing protector sold in the United States is not adequate.

### Occupational Noise Exposure

Overexposure to high noise levels can cause permanent hearing loss, which reduces the ability to understand speech and enjoy desirable sounds such as music and bird songs.

### Noise/Hearing Conservation

Hearing Loss Prevention Programs Recommendations for effective hearing loss prevention practices and the rationale behind them can be found in two of NIOSH publications, the , and in the.

### Noise Dosimetry: On Hearing Conservation Programs

This best practice document provides information on fit-testing of hearing protectors. Not only will our team help you establish safe practices, but we offer ongoing.
