Meeting Calendar

Financial support from BLTP JINR, Russian Foundation for Basic Research, Heisenberg-Landau Program and Bogoliubov-Infeld Program was of a great importance. The organizers and the participants wish to thank the University of Birmingham, the European Research Council, CERN, the UK Science and Technology Facility Council and the UK Institute for Particle Physics Phenomenology for their support in the organization of this successful edition. .

Solid particles in the solar system (1980 edition)

The size of objects including a sandgrain, a bacterium, a virus, the spacing of atoms and an atomic nucleus are shown for comparison. The central axis of the drop was inclined to the normal of the two plates. The aim of the conference is to provide an overview of the present status and progress in hadron structure and dynamics, as well as a preview of the forthcoming investigations.

Toward a global space exploration program: A stepping stone approach

AIP Conference Proceedings 387, 1447-1452. The application of the torque caused the drop to spin with increasing velocity.

A Bibliography of Pluto/Charon Literature References

It is an attempt to create a high-school curriculum which makes as much use of space and spaceflight as possible. The site describes the activities of the Astronomical Society of India, and includes an online membership directory. Laplace, for example, thought the entire future could in principle be predicted if we knew the positions and velocities of all particles of matter.
