## Certified Public Finance Officer (CPFO)

Strong preference should be given to impact measurement approaches that build on international best practices and align with the Sustainable Development Goals.

## Inclusive innovation: New ideas and new partnerships for stronger communities

Scaling up of CSL activities and large classes create challenges.

## Community Service

Experiential Learning: Experience as the source of learning and development. Across Canada, more and more governments, foundations and corporations are testing funding practices aimed at fostering innovation in a variety of areas including homelessness, settlement services, and youth employment.

## Continuing Education studies in Canadian Universities

This was particularly true for institutions in the Atlantic provinces which are suffering an overall decline in population.

## Community Service

Some organizations and individuals, including the National Impact Investment Practitioners Table and Social Innovation Canada — a national affiliate of the global Social Innovation Exchange, SIX — have been working to develop and connect national networks in support of social innovation and social finance. Vancouver, BC: University of British Columbia. Unpublished doctoral dissertation, University of Pennsylvania, Philadelphia.

## **Education Policies in Canada**

The Struggle and Renaissance of Indigenous Knowledge In Eurocentric Education. Maintaining ongoing contact with the current literature can require considerable effort and is often associated with several barriers. CAUT Forum for Aboriginal Academic Staff, Saskatoon, SK, November 13 2 hours.

## **Continuing Education in Research Ethics for the Clinical Nurse**

Both the east and west buildings of HRIF are linked at every floor to the Heritage Medical Research Centre with the exception of Level 1 of HRIF West. However, it may be too simple to say that programs with liberatory aims have greater benefit for students and communities than those with more pragmatic aims; rather, as Butin suggests, there are possibilities and limitations associated with all approaches.

## **The 2017 national survey of online learning in Canadian post**

CCIF has approved the first investments in four co-operatives and is expanding its pipeline of potential investments in innovative co-operatives across the country.
