• Protest participation rate in Latin America by country 2019

The impact of these movements on the quality of democracy and governability are not yet entirely clear.

Bridging Gender Data Gaps in Latin America and the Caribbean: Technical Report

In a survey carried out between September of 2018 and April 2019, it was found that Bolivia was the country with the highest share of respondents who had participated in a demonstration. The greatest difference between national and international databases occurs in the economic domain, where national databases have substantially more sex-disaggregated indicators. Measures of the facilities, learning materials, and teaching staff are also of importance for the quality of education.

The Women's movement in Latin America : participation and democracy in SearchWorks catalog

X Proportion of women with access to clean cooking fuel Non-conforming, lacking sex-disaggregation Outcome 11: A Technology-Enabled Society Three indicators provide measures of the penetration of modern technologies. Still, opposition lawmakers have forged ahead in deepening their institutional ties with China, eliciting what they described as the first-ever Chinese humanitarian aid to Paraguay in June, and vowing to recognize the country if the balance of power in Congress shifts.

Employment Situation in Latin America and the Caribbean: Evolution of and prospects for women's labour participation in Latin America
