The Occult History of the Third Reich: Völkisch Occult Cosmology

Possibly, the Late Heavy Bombardment offered important conditions for helping life re- establish. Laboratory experiments demonstrate that replicating autocatalytic RNA molecules undergo spontaneous changes and that the variants of RNA molecules with the greatest autocatalytic activity come to prevail in their environments.

Origin of Life

The ocean could have played further roles in human development, for example via the aquatic ape hypothesis, although that particular theory is not widely accepted see Hoare, 2013. Horst Ludwig Wessel October 9, 1907 — February 23, 1930 was a German Nazi activist who was made a posthumous hero of the Nazi movement following his violent death in 1930.

How to Determine the Age of the Earth?

Other mismatches of geology and climate included distinctive fossil ferns *Glossopteris* discovered in now-polar regions, and the occurrence of glacial deposits in present-day arid Africa, such as the Vaal River valley of South Africa. Presently, by any discussion on the problem of age of the Earth is understood a discussion of radioactive methods alone since all the other methods are highly speculative and already stand discarded.

In 1934, Treibs separated a vanadyl-porphyrin complex I bearing a similar structure to chlorophyll a II present in eukaryotes plants and algae from

an OM-rich black shale. Subsequent studies by numerous scientists, chief among whom were Marie Curie, Pierre Curie and Rutherford, put radioactivity on firm foundations as a subject of great practical importance in numerous fields. Hörbiger, Hanns 1860

When Galileo pointed his telescope into the night sky in 1610, he saw for the first time in human history that moons orbited Jupiter. Building stones for life could have been transferred from Mars to the Earth via cosmic debris, mobilised during a severe impact on the red planet. In , 2017 The origin of life is a long-standing and controversial subject, and different processes have been proposed.

Historical perspective [This Dynamic Earth, USGS]

Horbiger averred that an 'uprush of fire' was imminent, that great initiates would co-operate once more with the cosmos and its struggle between ice and fire, that Supermen would once more walk the earth's surface, and that before them the slave-men would tremble and obey.
