But here are specific examples for each: Philosophy — the emphasis 3Rs reading, writing, and arithmetic , as basic subjects. If you are doing it for a degree program macro level , It means that the subjects to be offered be related to the four foundations.

Remarks on the Foundations of Mathematics

It is a long process but be patient. I would only recommend reading it if you are already familiar with the later Wittgenstein's philosophy in general, as parts of this book are difficult to interpret if you were to read it without understanding Wittgenstein's broader aims. The philosophy of mathematics was one of his earliest and most persistent preoccupations.

Remarks on the Foundations of Mathematics, Revised Edition

The very fact of the existence of this background is not amenable to philosophical analysis. And now suppose that these people use these appliances, say as we use calculation, though of that they know nothing. For, whatever my experience is or has been, I surely still have to make the prediction.
