**Geology of India and Burma by Krishnan M S**

BOC bought up the ROC refinery at Danidaw, and subsequently established modern refineries in other parts of Myanmar.

**Geology of India & Burma by M.S. Krishnan**

Myanmar is also exposed to other natural hazards, especially storms, cyclones, floods and landslides, often leading to disasters that affect many more people than earthquakes. Oldham accompanied Arthur Phayre, the British Commissioner for the annexed territories, as part of the Yule Mission to the Court of Ava in 1855.

**Geology of India and Burma by Krishnan M S**

Within a few decades the petroleum industry in Myanmar flourished and became one of the foremost industries in the British Empire. The largest piece of jade found measured 21.

**Geology of India**

The authors clarify the interrelationships of chemistry biology microbiology and engineering that relate to the study of a single commodity area. The MOC, now known as Myanmar Oil and Gas Enterprise MOGE, was administered under the Ministry of Mines until 1976 when it was placed under the Ministry of Industry; a separate Ministry of Energy was later established. Other geological organizations in Myanmar By the 1960s several government ministries had established geological departments, including the Mineral Development Corporation MDC or Myanmar Mineral Development Corporation MMDC under the Ministry of Mines.

**Geology of India & Burma by M.S. Krishnan**

Initially the company smelted slag left by the old miners at Mandalay, but also conducted intensive exploration in the Bawdwin area.

**Geology of India and Burma by M.S. Krishnan**

These effects depend on the magnitude of the earthquake, its depth, the amount of movement, the nature of the substrate with the effects being less on solid rock and greatest on soft alluvial sediments and on the density of the population in the affected area.

### **Geology of India**

In 1973 the Irrigation Department, which was under the Ministry of Agriculture and Forests, established a badly needed Engineering Geology Section headed by U Sann Lwin, a post-Independence graduate of Rangoon University and formerly a geologist with DGSE. Central Myanmar, Chindwin and Salin basins and 4 offshore basins e. These alluvial deposits consist of clay, loam, silt etc.
