Functional Organization

Although the set of financial functions does not change, the way each is performed varies from country to country depending on traditional practices, regulations, the level of technology, and other factors. Pension funds now hold about 13 % and non-U. Today competitors that focus on particular functions can provide those functions to customers more efficiently than banks can.

Function Transformations

The Severed Link Between Savings and Loans To illustrate how the old bundle of functions is fracturing, consider how savings institutions and mortgage lending have changed. The LibreTexts libraries are and are supported by the Department of Education Open Textbook Pilot Project, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. The concept of asset-management accounts such as the now familiar cash-management accounts offered by brokerage companies could be extended to meet the needs of a broader segment of the population.

However, it is also possible that an investment-management company might extend its reach to form a new kind of intermediary that combined money management, financial risk management, and life insurance which the new company could purchase wholesale from an insurance company.

Total Factor Productivity Growth and Technical Change in a Profit Function Framework

If this form of securitization becomes an important trend, small-business loans may go the way of home mortgages. They provide their own guarantee of credit or use a credit enhancement purchased from an insurer. We believe, however, that this fragmentation of traditional institutions is

part of a transition to more efficient arrangements.

It is not hard to imagine that, in the future, Intuit also might offer mutual funds and insurance products. With securitization, loans that originate in the growing community may be purchased by banks with weak loan demand or by any institution with funds to invest. Think of the young couple wanting to save for the college education of their children.
