## Clinical Guidelines and Recommendations

Health promotion EPHO 4 is inextricably intertwined with disease prevention. It is a long-term undertaking that began before the PHCTF was created and will continue beyond it.

## Promoting Health for Adults

It is essential, however, for the services included at health fairs to utilize interventions that are proven to be effective and beneficial.

## Development of a multiphasic screening examination for medical care patients—I: Historical review and description of the examination

Women with an increased-risk family history should be considered for genetic counseling to further evaluate their potential risks. The Chinook Chronic Disease Management Network, the Calgary Chronic Disease Management Initiative and the Good Health Team developed programs and services for CDM patients. The province has committed to accelerating the CDM work enabled through the PHCTF.

## Clinical Guidelines and Recommendations

Food and Drug Administration—approved therapies reduce fracture risk in women with low bone mineral density and no previous fractures, including bisphosphonates, parathyroid hormone, raloxifene, and estrogen.

## Multiplex Detection Immunoassays Market to reach US\$ 3.6 bn by 2030

This initiative developed nine support packages: Moving to Group Practice; Improving Practice Efficiency: Advanced Access; Working Within Teams; Sharing Patient Care with Specialists; Managing Chronic Disease in the Office Setting; Enabling Patient Self-Management; Investing in Prevention and Early Identification; Introducing Group Visits; and Developing a Patient Registry. They were successful in recruiting health care professionals and established a health information system that allows them to monitor trends, utilization and outcomes, and to use analysis to

support clinical, policy and funding decisions. Screening tests are not diagnostic tests The primary purpose of screening tests is to detect early disease or risk factors for disease in large numbers of apparently healthy individuals.
