Volkmar Lehmann

However, the existence of a standard language is counted from the time when it started to be a written language, with the contemporary substance and structure, with an evolutionary development which means that there were no abrupt changes in its form, and from the time it started to be codified, either spontaneously or through consciously prescribed rules. The same indexes and chronology appear for this work as for those described above. A situation is defined as episodic if its corresponding time interval is closed and if it is localised in a closed interval together with the interval of the reference time, which itself is also a closed interval.
