He also began Sheepfolds in 1996, which entailed restoring sheepfold structures four-walled sheep enclosures usually made of stone and adding a to many of the sites throughout Cumbria county in northwestern England. The mountain house at Ljuboten is located in the foothills of the peak, connected with a road to.

Ljuboten

For Goldsworthy the project was realized through the unexpected encounters London residents experienced with snow in summer as well as with the natural transformation of the snowballs when exposed to the heat.

Jesus Sends Out 70 Disciples to Preach

While in school he discovered his preference for creating art outdoors rather than in the studio.

Ljuboten

In winter there is usually over a meter of snow. Jesus thus assures his followers that they will be able to prevail over injurious things, symbolically trampling on serpents and scorpions. The installation is in a ground-level gallery that can be viewed from above, offering a new perspective on an ancient architectural form.
