In pursuit of this, he had drawn the greater part of the nobles to Paris; and now that his absence and declining favour with the King dissolved the charm which seemed to hold them in the capital, they congregated at St. The right wing of the first court was principally occupied by that beautiful Theatre, so strongly connected with every classic remembrance of the French stage, in which the first tragedies of Rotrou and Corneille were produced,—in which many of the inimitable comedies of Molière were first given to the world, and in which he himself acted till his death.

Away with him, and curry him well! He was for many years British Consul at various places in the United States and on the Continent. The heavy gate was thrown open, the drawbridge fell, and, striking the sides of his horse with his armed heel, the newly emancipated prisoner bounded over the clattering boards of the pontlevé, and with a lightened heart took the road to St.

But, notwithstanding this appearance of gaiety, Chavigni was not easy; and even while he spoke, he rode on with no small precipitation, till, turning into a narrow forest path, the light of the moon, which had illuminated the greater part of the high road, was cut off entirely by the trees, and the

deep gloom obliged them to be more cautious in proceeding. Cinq Mars and most of the piqueurs, misled by seeing the young hounds have so great a majority, followed also. In the present instance, his fine features were drawn and sharpened by the attempt to drive from them any expression of his feelings, and his eye flashed with ill-subdued fire, as he irritated himself with a thousand conjectures concerning the latent movers of the recent occurrences.

Immediately, they all ran in different directions, some to the door, some to the window, to see so wonderful a pair as the Père Alexis and his penitente. The hand-writing was unknown to him, and De Blenau at first hesitated whether to obey the summons or not; but curiosity has a thousand ways of strengthening itself, and at last he reasoned himself into a belief, that whatever it might be, no harm could accrue from his compliance.

Germain, without guards, without court, without attendants, but such as the Cardinal de Richelieu chooses to allow her. In the mean while De Blenau bowed his head, calmly prepared to bear the mental torture of a long cross-examination, where every word might be subject to dangerous misconstruction. It was enough to have killed the Devil.
