Atlas index

The myth tells how the Milesian King Breogan built a tower in Brigantium in Gallaecia from which his son Ith spied the green Isle of Ireland.

General maps

The current concept is that the hill fort was not just a defensive position but a functional community unto itself. None of which detracts from the decisive role played by the great victory in ensuring that the kingdom of the Angelcynn would stay united — nor from the scale of what was achieved by the victor himself.

Timeline of Welsh history

They would have become a small ruling elite, would have had children with local women, and within a few generations their Indo-European language would have been lost, absorbed by the indigenous languages.
