### 5 Best Inflatable Life Jackets

Any existing canisters that have not been used should also be checked every three months to assure they are still viable. However, here is a general overview of how to use an inflatable life jacket. If the vest is used the CO2 tank will need to be replaced.

#### Automatic Life Vests

Many commercial boaters are required to continuously wear a lifejacket. This Mustad Survival HIT life jacket comes in a model with a harness that includes D-rings. Self Deployed Inflatable Life Jackets Self-deployed inflatable life jackets are deployed when they are submerged into the water.

### 17 Best Inflatable Life jackets in 2021

The Mustang Survival MIT is a one size fits all life jacket vest that provides comfort and safety when used on the water. At what age can inflatable life jackets be worn? Whether you're kayaking with the family or on the lake, a safety vest is a necessity in order to keep everyone safe. The jacket can be adjusted on the sides by using the straps and buckles that are provided.

#### Automatic Life Vests

It is deployed manually by pulling the cord and typically inflates within three seconds. In addition to this, you can deploy as you go.

### 5 Best Inflatable Life Jackets

Automatic inflation takes advantage of either a dissolving capsule or a pressure sensor that will trigger inflation when exposed to water.

#### Automatic Life Vests

This is a good choice for adults and especially for kids under 16 that are not allowed to use inflatable life jackets.

## **5 Best Inflatable Life Jackets**

The Onyx M16 Unisex Inflatable Life Jacket Belt is manually inflated by using the pull tab to discharge the CO2 tank. However, I would not recommend getting this vest for water-activates in the USA. It is recommended that those over the age of 16 and 80 pounds wear the jacket, as it will fit the best.
