The Landing Grill & Sushi Bar

Park your car at The Landing and leave the rest up to us. While intermediate landings offer resting points, they do not reduce the amount of effort that must be exerted to negotiate multiple runs. Yes, handrails can be installed on guard rails if all applicable requirements are met.

Landing

. At facilities located on sites, various measures can help reduce hazards, including reduced traffic speeds, marked crossings with pedestrian right-of-way, and speed-bumps, and other optional traffic calming measures.

Chapter 4: Ramps and Curb Ramps

Consult local Standards for application requirements, including slope for vehicle traffic, height, and markings. Long ramps with many runs can be strenuous for people using manual wheelchairs. The public rights-of-way guidelines will address requirements for detectable warnings due to hazards to people with vision impairments along public streets and sidewalks.

The Landing

Built-Up Curb Ramp with Side Flares Side flares can be provided to prevent tripping hazards.

The Landing (2017)

The Blue Heron Located on the west side of The Landing on the main level, The Blue Heron offers exceptional food, personable service, and a great view of Current River. Unless the radius is large enough, it can be difficult to locate the clear space at the bottom of diagonal curb ramps that is outside active traffic lanes.
